Describe, Analyze, and Evaluate Activity

The next slides will show you images that you may encounter in the US. For each picture, make note of:

• what you notice,
• what you think is happening, and
• what feelings (positive or negative) the image evokes.
Sad news. Please accept my condolences. Let me look at the assignment and see what is needed. I can certainly reschedule but let me see what we need to accomplish first.

Subject: Wednesday team meeting

Hi [Name] & [Other Name],

I will not be able to attend our team meeting on Wednesday. My husband's grandmother passed away last week and her viewing and rosary mass are at the same time. Would you be open to rescheduling for another time this week?

Thanks!

In this course, everyone has the right to feel safe. No one has the right to threaten, harass, or demean others in the class. Everyone must maintain a professional demeanor. This includes addressing others in a respectful manner and listening without interruption, identifying and understanding multiple sides of an issue, and analyzing and critiquing ideas as opposed to the people presenting those ideas.

A substantive post consists of a well thought out response to the question or prompt. It should respond to the prompt in a way that clearly supports a position, begins a new line of thought or somehow adds to the discussion by critically reflecting on what is being discussed, or moving the discussion in a related direction. As a matter of clarification, the following are NOT examples of a substantive post:

- A simple, I agree, your point was well taken, I understand your point of view, etc.
- Commenting on the quality of the original post
- Simply restating the idea of the person you are responding to

Hello,

My Outlook email inbox is not refreshing. It looks like I have not received any emails, even though I can see them using my phone. What do you recommend I do?

---

Thanks,
Bridget
