

Intervention Specialist: Mild to Moderate & Moderate to Intensive (Special Education) Professional Licensure Information

Professional Licensure Programs

A professional license is typically regulated by state laws and is required for graduates of these programs to practice, to use the professional designation in their title, and/or to gain employment in certain occupations.

State Licensure

Franklin University's Intervention Specialist: Mild to Moderate and Moderate to Intensive (B.S. and post-baccalaureate) programs are approved by the Ohio Department of Higher Education.

Requirements for teacher licensure vary by state and may involve more than successful degree completion. Graduates who apply for a license may need to satisfy other requirements, such as passing an examination, completing an application, and submitting to a background check. Some states have separate processes and requirements for applicants who have completed their academic program in a different state.

Educational requirements for teacher licensure can include specifications for the applicant's type of academic degree, type of educational institution where the academic program was completed, and curriculum content within the academic program. Some states offer multiple pathways to teacher licensure, including recognizing a license earned in another state or providing options for qualified professionals who wish to transition into the education field. *The list below pertains only to the educational requirements to obtain a state teaching license.*

The information provided below does not guarantee that any particular state licensure entity will approve or deny an individual application for certification or professional licensure; individual determinations are made by the state licensing boards upon review of all application materials.

Requirements for licensure are subject to change at any time. Anyone who is interested in seeking licensure as a teacher is encouraged to visit the state and U.S. territory websites listed in the chart below to review the current requirements for that location. *Note: If links are not provided, a website for the regulatory agency in that location is currently unavailable.*
